

# **MEMORANDUM OF UNDERSTANDING**

**Between**

**ALASKA DEPARTMENT OF NATURAL RESOURCES**

**And**

**BRISTOL BAY NATIVE CORPORATION**

**To**

## **FACILITATE OIL AND GAS LEASE SALES ON STATE AND BBNC LAND IN THE BRISTOL BAY REGION**

THIS MEMORANDUM OF UNDERSTANDING (MOU) is made and entered into by and between the Alaska Department of Natural Resources (DNR) and the Bristol Bay Native Corporation (BBNC), collectively referred to as "the Parties." The purpose of this MOU is to contribute to the achievement of common goals and objectives of the Parties and to establish an effective communication framework between the Parties.

### **Background:**

- A. The DNR is tasked with managing the State of Alaska's land in southwest Alaska and the natural resources contained therein, including oil, gas, and minerals, and BBNC is responsible for managing its 3.1 million acre mineral estate on behalf of its 7,100 shareholders.
- B. Similar to the North Slope and Cook Inlet regions of Alaska, the Bristol Bay basin has been identified as having good potential for commercial quantities of oil and gas deposits.
- C. Exploration of oil and gas resources is a vital component to stimulating the local economy and providing jobs and economic opportunities in the region.
- D. The discovery of commercial quantities of oil and gas would provide an opportunity for low cost energy in the region, further stimulating the local economy.
- E. Any discoveries of commercial quantities of oil and gas in the Bristol Bay region will benefit both BBNC's shareholders and the State of Alaska, so it is in the best interest of the Parties to encourage exploration for such resources.
- F. BBNC has requested that the State facilitate on-shore oil and gas exploration in the region by holding annual areawide leasesales, beginning as soon as possible.
- G. Like other mineral deposits, oil and gas resources know no political boundaries, and it is often logical and desirable for two adjacent

landowners to have similar land management and leasing programs in place.

- H. With BBNC's support, the DNR's Division of Geological and Geophysical Surveys applied for a 3-year, \$700,000 U.S. Dept. of Energy grant (\$150,000 of cash and in-kind contributions to be provided by BBNC) to further evaluate the oil and gas potential of the Bristol Bay basin.

**Agreements:**

The Parties agree to the following provisions:

- The Parties will work cooperatively to facilitate oil and gas leasesales of state and BBNC lands in the region to be held as soon as feasible.
- The Parties will cooperate to ensure all development projects in the Bristol Bay region will be pursued in an environmentally responsible manner and will minimize impacts to fishery resources.
- The Parties will work cooperatively to convince the federal government to re-open federal offshore oil and gas prospects in the region to exploration.
- The Parties will endeavor to synchronize the timing of their oil and gas leasing schedule for their respective lands.
- The Parties will help facilitate the design and construction of a transportation network that will make oil, gas, and other mineral prospects more accessible and inter-connect communities in the region.
- The Parties will communicate their development goals to other interested entities in southwest Alaska, such as tribal organizations, village corporations, and borough and city governments.
- The Parties will not act contrary to applicable laws, regulations, policies, and procedures.
- To the extent allowable by statutes and regulations, the Parties will share information that will assist in accomplishing the objectives of this agreement.
- Where reasonable, the Parties will issue joint press releases on matters related to this MOU and will coordinate responses to media questions.
- Notices regarding actions under this MOU will be sent to (for each party):

DNR Commissioner  
State of Alaska  
550 W. 7<sup>th</sup> Ave., Suite 1450  
Anchorage, AK 99501

Chief Executive Officer  
Bristol Bay Native Corporation  
800 Cordova Street  
Anchorage, AK 99501

- The term of this MOU will be five (5) years from the effective date and can be extended for five-year periods thereafter with the written agreement of the Parties.
- This MOU may be terminated with thirty days written notice by either Party.
- This MOU can be modified upon written consent of the Parties.

- Others may become party to this MOU upon written consent of the Parties.

**Approved:**

Thomas E. Irwin, Commissioner  
Alaska Dept. of Natural Resources
